## December Students Of The Month

December's students of the month were: **Bradley & Kristen**. Also, congratulations to all of those who received certificates for being Model Students during the month of December.

Remember those who have perfect attendance each month will receive a homework pass

## A Note From Mr. Olson

The next couple of months will be busy for us as a class. We will be starting our preparation for our testing in the spring. We have already been working on our "Smart Goals" which will help us learn the things we need to know for the test. In math we will be working on perimeter, area, solids, volume and division. Our writing topic this month is New Year's Resolutions and what we want to do better at this year. Continue to read each night for at least 20 min.

Be sure to check out our class website each month. The students have their own page where their stories are posted. By now each student should have a total of at least 5 stories (one each month). Some students have also posted book report videos and extra stories as well. Our class web page is listed below. You can also find links to many great sites to practice math, language, and reading. Have fun—and leave a little note in our guest book.

**Reminder:** If your child is absent please **call** the school or **send a note** to let us know why they were absent --Thanks !
